

# T3 Tinkering Time with Teachers

LIGHT & SHADOW PLAY

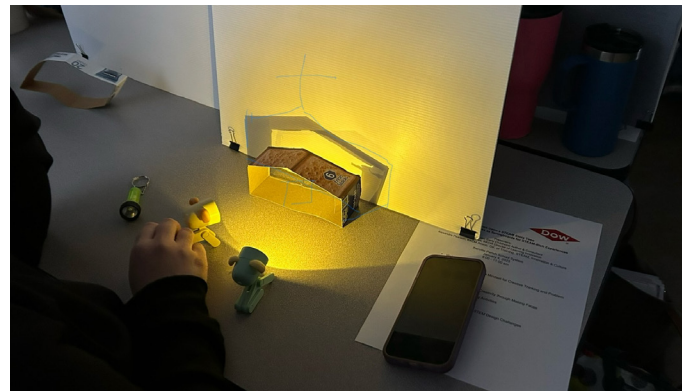

## PreK – 3rd Grade Educator & STEM Coordinator Workshop

Did you know that children discover their shadows at a very early age? Join Knock Knock Children's Museum's Learning Innovation team for the next Tinkering Time with Teachers Workshop: Light and Shadow Play.

Explore the universal phenomena around Light and Shadow Play to discover interesting light sources, learn how to bounce, bend, and block light, tinker with shadows through technology, play with colored light, and connect it all to literacy and art in your classrooms.

Participants will leave with a book list, supply list, a DIY theater, and many ideas they can easily integrate into their curricula.

Learn all about the workshop on our website:
