

# T3 Tinkering Time with Teachers

INNOVATORS UNLEASHED

## PreK – 3rd Grade Educator & STEM Coordinator Workshop

Put on your problem solving hat! Join Knock Knock Children's Museum's Learning Innovation team for the next Tinkering Time with Teachers Workshop: Innovators Unleashed.

In this workshop, we will travel through the engineering design process to shape an idea into an invention with the aim to foster innovation and an inventor's mindset in young children. Join "Inventors" Cate Heroman, Candy Jones, and Alexandra Pearson to learn, innovate, collaborate, and most of all to have fun!

Participants will explore new tools and strategies to help children become creative thinkers and problem solvers and leave with a book list, supply list, an invention, and ideas they can easily integrate into their curricula.

Learn all about the workshop on our website:
