

# T3 Tinkering Time with Teachers

## LIGHTS, CAMERA, LEARNING

### PreK – 3rd Grade Educator & STEM Coordinator Workshop

Get ready to take your students' creativity to new heights! Imagine them soaring through the skies, starring on the covers of their favorite books, or standing proud on historical monuments—all thanks to the magic of Green Screen technology.

In this hands-on workshop, you'll discover how to bring this exciting tool to life in your early childhood or elementary classroom. Walk away with your very own small green screen, a helpful supply list, and an abundance of innovative ideas to inspire and engage your students in fun, curriculum-enhancing projects. Don't miss this opportunity to add some extra pizzazz to your teaching toolkit!

Learn all about the workshop on our website:
